REMINDER
How to Use Gloves and Masks?

• Mask are used to protect against contamination risk.
• Persons who should wear a mask include:
  - screening and notification agents;
• It is important to follow rules on how to use masks.

How to wear a mask?

• Before putting on a mask, wash your hands with a hydro-alcoholic solution or with soap and water.
• Put the mask in the right position: if it is an FFP2 mask, the metal strip must be placed upwards. If it is a surgical mask, the white side should be placed inside.
• Put it in such a way to cover the nose, mouth and chin and make sure it fits as well as possible on your face.
• Adjust the metal strip on the nose.
• When wearing a mask, avoid touching it. Whenever a used mask is touched, wash your hands with a hydro-alcoholic solution or soap and water.

How to remove a mask?

• The mask is for single use only. The maximum efficiency duration is between 4h and 8h.
• Remove the mask from behind, without touching the front of the mask.
• Immediately dispose of the mask in a bin.
• Wash your hands with a hydro-alcoholic solution or with soap and water.
