

BACKGROUND

Since mid-April 2023, at least 427 people have been killed and over 3,700 injured due violent clashes between the Sudanese Armed Forces (SAF) and the Rapid Support Forces (RSF). It is estimated that up to 20 000 civilians have fled from Sudan into Eastern Chad, among them Sudanese refugees, but also Chadians and nationals from other countries. IOM is supporting joint registration efforts with the National Commission on Refugees (CNARR) and the UNHCR to identify Chadian returnees as well as international migrants requiring international protection.

IOM'S RESPONSE

- IOM has deployed Emergency and Displacement Tracking Matrix (DTM) teams to Eastern Chad to support the registration of new arrivals, the identification of Chadian returnees as well as migrants from other countries and the provision of immediate assistance;
- 226 civilians evacuated from Khartoum on 27 April have received post-arrival assistance including transport to a safe shelter, cash support for onwards transportation to help them reunite with their families;
- IOM has provided consular assistance to multiple INGOs evacuating their officials from Sudan who had lost their ID documents;
- IOM is liaising with multiple embassies in Chad who are waiting for the arrival of their compatriots.
