

WHO WE ARE

A **Global Partnership**

Working towards the achievement of the **2030 agenda**

By providing countries with **capacity development services**

To help them reduce **disaster and climate risks**

WHAT WE OFFER

1 CLIMATE AND DISASTER RISK INFORMATION SYSTEMS

Deployment of multi-sectoral expertise to set up integrated, multi-hazard country risk information systems that are accessible to users at all levels.

2 RISK-INFORMED PLANS AND PROGRAMMES

Deployment of multi-sectoral expertise in support of inclusive and integrated risk-informed plans and programmes.

3 PREPAREDNESS FOR RESPONSE AND RECOVERY

Deployment of multi-sectoral expertise to optimize country systems for disaster preparedness.

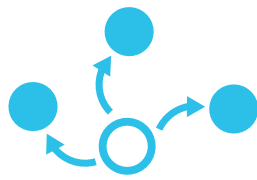

OUR VALUES

- We believe that reducing disaster and climate risks calls for a holistic approach to working **within and across sectors** and levels.
- We promote a **new way of working** between the humanitarian and development actors by integrating data collection and analysis and building consensus around collective outcomes.
- We facilitate an **inclusive** multi-stakeholder engagement process ensuring that plans and strategies are responsive to the needs and demands of the most vulnerable.

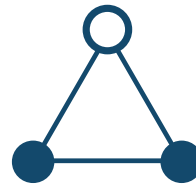

HOW WE DO IT

Deployment of multi-sectoral expertise from CADRI Partners.

Referral service to access funding and technical assistance.

South-south and triangular cooperation.

Specialized training to integrate risk reduction in the SDGs.
